About CPM

Project management is a growing field, and it has important in every organization. Project managers are responsible to complete major tasks for their company, in a given time, budget and resources. Certified project manager (CPM) will help you to manage different projects of your organization in the best way. You will be able to manage any situation regarding any project in a competitive manner. CPM program includes PMP training and PDUs.

- Make a project plan that could easily balance the cost, time, scope and risk.
- Control the project activities proactively and proficiently to assess improvement.
- Report the performance and status professionally.
- Make a project archive that can contribute to the company's experience base.

Program Structure

CPM comprises of following three project management courses, which assure that you have proven and tested expertise in project management.

CPM Coursework

Project Management Fundamentals
Project Management Tools & Techniques – I
Project Management Tools & Techniques – II

Accreditation

- CPM is awarded by AIMS - a CPD accredited and UKRLP registered institute. CPD accreditation assures that AIMS' practical and methodical approach is focused to improve professional development.
- CPM Total Qualification Time (TQT) is 135 hours and it is designed as per Ofqual Level-4 standards of Regulated Qualifications Framework (RQF).
- CPM is also recognized by several international bodies as nine (9) credit hours of graduate studies
