MDPM Program Overview

Due to the increased complex nature of projects, professionals with "REAL" project management skills are becoming highly sought-after. With the clear understanding of today's business dynamics, AIMS launched the Master Diploma in Project Management (or MDPM) program. It develops the necessary concepts and techniques, which are required to manage small and large projects.

- ✓ Project Management Diploma prepares you to manage Projects, Programs, and Portfolios.
- ✓ Includes PDUs & exam prep for PMP, PMI-ACP, PrMP (Program Management) & PfMP (Portfolio Management).
- ✓ You design a real world project, which helps you implement your theoretical knowledge into practice.

Program Structure

Diploma in project management is a 24 credit hours qualification. It comprises of total 8 courses, which are divided into two semesters. After the students have acquired theoretical knowledge, they prepare a real world project to implement theory into practice.

Learning Outcomes

MDPM gives you the necessary knowledge and skill set to,

- ✓ Work as a Project Manager or Team Leader in a variety of different fields.
- ✓ Effectively lead a project through start to finish.
- ✓ Successfully lead small, medium, or large projects.

Why Project Management

Project Management is the planning and organization of resources to perform a task, an event, or a duty towards completion. Demand for project management skills has increased in the last decade, and it has become a fundamental need of today's business. Project management skills are need of professionals, who are working in all industries. These industried includes finance, engineering, information technology, management, and healthcare.

Our Students Say!

“Master diploma in project managment gave me a perfect opportunity to learn what I wanted to pursue exactly. The study resources are lively, and lecturers are not only friendly but also industry experienced so we can learn from experts' amazing experiences right away. During my *diploma of project management* studies, I was able to earn complete knowledge, without the need to attend the classes in person. The online lectures and study e-manuals are of great help. The assignment schedule helped me to continuously keep track of my studies.”
